

Donate Dollars for Dobby

Dobby's story started in a flooded Houston gutter, where he was found by someone hearing his sad meows from below the street. As Dobby was pulled to safety, his rescuer saw that he was severely injured.

She would soon realize that he had severe damage to his legs and pelvis, ***injuries that were sustained so early in his life that at eight weeks he already has poorly-healed fractures! His left rear leg and foot face backward!***

Will Dobby walk again? Yes, but the price of one precious kitten scampering around the house is **\$3,500**, and Dobby's rescuer can't do it alone.

Could there be a worse time to ask for donations than the current slump? No, surely not.

Does Dobby know that times are hard? He doesn't have a clue. He only knows that now he no longer has to struggle just to survive. He is warm and safe and well fed. Kind hands touch him.

Dobby's surgery will give him an almost normal life. Please help Dobby get onto that surgical table by donating **your** dollars for Dobby, and by passing this flyer on to everyone you know.

**Every dollar
counts!**

Darling Dobby on TomballSOS.org

To donate dollars for Dobby:

Read his story; track the progress of his treatment, and monitor Team Dobby's fund-raising on Dobby's page:
